NORD HUB
Cold Storage & Logistics

COLD STORAGE & LOGISTICS FOR F&B AND HORECA

We keep it cold.

A Grade A+ food-logistics hub in development in Ras Al Khaimah. Freezer, chilled and ambient storage, automated handling and own-fleet distribution - connected around your business.

-25 to +25°C	35,000	24/7
Temperature capability	Pallet positions at launch	Operation, 365 days a year

Food security is our main goal. Sustainability shapes the design: efficient refrigeration, electric warehouse handling, solar across storage-roof and parking areas, and responsible water treatment.

Launch commitments are management-confirmed. Service commencement follows commissioning and relevant approvals. Grade A+ describes our development standard, not an awarded certification.

THE CONNECTED SERVICE

Store. Prepare. Distribute.

Freezer, chilled & ambient	Product-appropriate storage from -25°C to +25°C, with product-specific humidity and segregation requirements agreed by zone.
Receiving & order preparation	Full-pallet handling, case picking and hand-picked small items for mixed orders and frequent replenishment.
Refrigerated distribution	40-foot refrigerated trucks, 5-tonne and 3-tonne freezer trucks, plus freezer vans. Port, supplier and warehouse collection; agreed onward delivery.
Inventory & visibility	Product, batch, expiry, rotation and handover information considered alongside physical handling. Systems and reporting access are confirmed by project.
Premium hospitality ice	Ice cubes, 50 × 50 mm large cubes, 50 mm diameter spheres and 480 mL sealed cups. Bags: 2 kg / 5 kg; professional boxes: 20 kg+ with 5 kg inner bags. Launching with the hub; final specification and delivery agreed by proposal.

Products we will plan around

Meat and poultry | Fish and seafood | Dairy | Ice cream and frozen foods | Fruit and vegetables | Tea, coffee, packaged foods, drinks and beverages

Product care is part of the operating brief.

Temperature exceptions, packaging, compatibility, batch identity, stock rotation, holds and release authority are assessed for your product. No facility certification, live portal or measured operating result is claimed in this brochure.

RAS AL KHAIMAH

Close to the businesses that need food moving.

Serve hospitality venues, retailers, markets, caterers, labour camps, factories and plants through agreed RAK and Umm Al Quwain routes.

Local receiving areas	Al Hamra, Al Marjan, Mina Al Arab and RAK city, plus agreed wider RAK and Umm Al Quwain destinations.
RAK express service	20-minute express delivery from order confirmation is a launch offer for eligible RAK orders and zones. Coverage, product readiness and receiving access are checked before confirmation. It is not a blanket promise for all addresses or UAQ.
Capacity & commitments	Explore the 16-chamber CS10 concept and signed-MOU counting rules. Public commitment figures remain withheld until signed records are verified. Enquiries never book capacity.
Development status	RAK construction underway; programme-status basis 22 October 2026. A public opening date has not been announced. Final engineering limits and relevant approvals are confirmed before operation.

START THE CONVERSATION

Your requirement.
Our next conversation.

Storage: products, pallets, temperature and period.
Transport: pickup, load, conditions and destination.
Ice: preferred format, quantity, venue and replenishment frequency.

contact@nordhub.ae
Office: +971 4 331 7007
Mobile & WhatsApp: +971 56 167 5007

Dubai branch: Office 410, Business Avenue Tower, Dubai, UAE. PO Box 415435.
RAK branch: Al Samil Street, Al Jazeera Al Hamra Industrial, Ras Al Khaimah, UAE.
Please confirm the meeting location before visiting.

Your next steps

1. Send your service requirement.
2. Our coordinator reviews and assigns it to sales.
3. Sales discusses suitability, scope and timing with you.
4. Commitments are recorded only after review and agreement.

An enquiry does not reserve storage or confirm an opening date. Facilities remain in development. Service scope, timing and commercial terms are confirmed by proposal.
